

Autodesk Navisworks Simulate Essentials Training Course

2 Day Course

Who Should Attend?

This course is designed for new Navisworks users who need to become familiar with all the main tools within Navisworks Simulate. Before starting this course, students should have a working knowledge of AutoCAD or similar design product. It is also recommended that delegates have a working knowledge of Microsoft Windows.

Objectives

After completing this course delegates will be able to effectively use the range of tools in Navisworks for the following types of tasks:

- Navigation and walk through simulations for client, in house reviews, and project coordination meetings.
- Set up and manage Navisworks NWD, NWF and NWC files for effective coordination with all project stakeholders.
- Create links to external databases such as excel, Microsoft project and primavera among others.
- Creating construction simulations for phasing, site planning, and validation of construction schedules.
- Generate interactive animations for client presentations, marketing demonstrations and services.
- Produce photorealistic stills and animations for quick presentations and effective project/client communications.

Agenda

The primary objective of this course is to teach students how to combine 3Dgeometry from cross disciplines into one scene to enable effective model reviews. Students also learn to use Timeliner, Animator, Scripter and Presenter tools competently within Navisworks.

Note: We normally train on the latest version.

During the course delegates will cover:

Day 1:

- Introduction to Navisworks
- Navigation within Navisworks
- Introduction to Review Tools
- Database Support (Data Tools)
- Comparing Models and SwitchBack
- Navisworks Real-Time Rendering
- Creating Walkthroughs

Day 2:

- Introduction to Animator & Scriptor
- Events and Creating and Configuring Actions
- Introduction to Timeliner
- Simulation Export

The above may be varied to suit client's preferences and requirements.

Qualification

On completion of the course you will be presented with an Autodesk Authorised Training Certificate.

Customer Testimonial

“The trainer was excellent and he was able to tailor the instruction to suit all of the attendees needs. He answered all of our questions whilst still keeping to the course syllabus. All in all a very good course.”

Tony Gunter, Highways and Transportation Officer at Stockport Council
