

AutoCAD Dynamic Blocks Course

Half Day Course

Who Should Attend?

This course is designed for delegates who have attended an AutoCAD Essentials course and/or have 1+ years' user experience.

Agenda

Course Topics:

- Overview of Blocks
- Nested block and behaviours (Bylayer/Byblock/Byentity)
- Block vs Wblock
- Attributes & updating block definitions
- Creating Dynamic Blocks
- Assigning Parameters and Actions
- Constraints
- Sharing blocks via Tool Palettes
- Tool Palette groups & deploying libraries to fellow team members

Qualifications

On completion of the course you will be presented with an Autodesk Authorised Training Certificate.
