AutoCAD Blocks Course

Half Day Course

Who Should Attend?

This course is designed for AutoCAD users who want to learn more about blocks.

Delegates should have completed an AutoCAD Essentials course or have at least one years' experience using AutoCAD. Delegates must also have a working knowledge of a current Microsoft operating system.

Objectives

The primary objective of this course is to help delegates learn more about blocks.

Agenda

During the course delegates will cover:

Agenda Topics:	
• Why use Blocks?	• Sharing blocks via Tool Palettes
• Nested block and behaviours (Bylayer/Byblock/Byentity)	• Tool Palette groups & deploying libraries to fellow team members
• Block vs Wblock	• AutoCAD Design Centre
• Creating and Updating Block Definitions	• AutoCAD Block Palette
• Block Libraries	

The above may be varied to suit customer preferences and requirements.

Qualifications

On completion of the course, you will be presented with an Autodesk Authorised Training Certificate.
