

Introduction to Dynamo for Revit

1 Day Course

Who Should Attend?

This course is designed for experienced Autodesk Revit Architecture users.

Delegates should have completed the Revit Architecture for New Users course or have equivalent experience using Revit Architecture. It is recommended that delegates have a working knowledge of Microsoft Windows.

Objectives

The aim of the course is to introduce the Dynamo programming platform and teach its basic functionality and commands.

Agenda

Note: We normally train on the latest version.

During the course delegates will cover:

Agenda Topics:

- Dynamo Overview and Positioning
- Interface Overview
- Node Principles
- Basic Nodes and Node Types
- Lists Basics
- Lists in Depth
- Revit and Geometry
- Sample Scripts
- Useful Links

The above may be varied to suit customer preferences and requirements.

Qualifications

On completion of the course, you will be presented with an Autodesk Authorised Training Certificate.
